PROFESSIONAL SUMMARY

Innovative **Software Developer** specializing in **Python development** and **Full-Stack automation**. Expert at integrating AI tools to solve real-world problems, evidenced by engineering an **AI Blog Generator** with **80%+ transcription accuracy**. Extensive experience in **database management** using **SQL** and **SQLite**, improving data accessibility by **60%** in record management systems. Dedicated to continuous learning, holding certifications in **Foundational C#** from **Microsoft** and **Data Analytics**.

EDUCATION

- Thakur Institute of Management Studies Career Development & Research** August 2025 - June 2027(Expected)
Master of Computer Applications (M.C.A.); **Currently pursuing**
- Tilak Maharashtra Vidyapeeth University** June 2022 - June 2025
Bachelor of Computer Applications (B.C.A.); **CGPA: 8.170**

WORK EXPERIENCE

- Python Development Intern**
QSkill (Squarcell Resource India Pvt. Ltd.) - Virtual | Navi Mumbai, Maharashtra January 2026 - February 2026
- Developed and tested Python scripts, strengthening backend logic implementation and debugging skills.
 - Enhanced Python modules improving data processing efficiency by 20%.
 - Built Python-based application modules adhering to clean code principles and PEP8 standards.
 - Applied systematic problem-solving techniques to efficiently complete development tasks.
 - Gained hands-on experience with real-world software development workflows in a virtual team environment.

SKILLS SUMMARY

- Programming Languages:** Python (Advanced), C#, Java, JavaScript, SQL.
- Web Development Frameworks:** Django, Flask, ASP.NET Core MVC, HTML5, CSS3, Tailwind CSS.
- Databases:** MySQL, PostgreSQL, SQLite.
- AI and Tools:** LLM Integration (Open Router), Assembly AI (Speech-to-Text), Git/GitHub.
- Soft Skills:** Leadership, Rapport Building, Time management, Team Collaboration, Excellent communication, Team Work.

PROJECTS

- Ai Blog Generator | GitHub: <https://github.com/Vikash97600/AI-BLOG-GENERATOR-USING-YOUTUBE-VIDEOS>**
- Created a Python-based full-stack web application** using Django to **automate blog generation by converting 20+ minute** YouTube videos into structured articles in under **60 seconds**, reducing manual writing time by **90%**.
 - Implemented** Django authentication, role-based access, and dashboard functionality, enabling secure blog management with **PDF export, QR/WhatsApp sharing, and text-to-speech playback**.
 - Integrated** external **REST APIs** (Assembly AI) and **LLM-powered services** for speech-to-text transcription and content summarization, achieving **80%+ accuracy** across diverse video categories.
- Panchayat | GitHub: <https://github.com/Vikash97600/Panchayat-housing-society>**
- Engineered Panchayat**, a full-stack AI-powered Housing Society Management System using Django and MySQL, supporting **4 user roles** and automating critical residential community workflows through a centralized digital platform.
 - Designed and implemented 10+ smart modules**, including an **AI-powered Bylaw Assistant, Visitor Security Management, Emergency Alert Broadcasting, Complaint Lifecycle Tracking, Digital Notice Board, Facility Booking, and Community Voting**, improving operational efficiency by **70%+** and reducing paperwork significantly.
 - Built** secure role-based access control, real-time notification systems, Pass Code-enabled visitor approvals, and analytics-driven dashboards, delivering scalable management capabilities for **1000+ residents and hundreds of daily society interactions**.

CERTIFICATIONS

- Foundational C# – freeCodeCamp with Microsoft** (28th December, 2025)
- Data Analytics – NoviTech R&D Pvt Ltd** (27th December, 2025)
- Web Programming in Python – Udemy** (22nd April, 2025)
- Structured Query Language (SQL) – Learn More Pro** (26th April, 2025)
- IT Management – Software and Database – Alison.com** (22nd February, 2025)

ACHIEVEMENTS

- District Finalist | Avishkar Research Convention:** Selected as a finalist for the project **"Medi Buddy"** after successfully qualifying through the **Zonal Round** and the **District Poster Presentation phase**.
- Participant | Synapse Curtain Raiser:** Collaborated with a cross-functional team to coordinate logistics and stage presentations for **200+** attendees at the university's flagship technical event.
